
Our locally made product offerings are available in a wide variety of styles and series to fit your budget and design needs. Most styles available with impact-rated upgrade option; ask your sales rep for details. Shop drawings and specifications available upon request.

MORE CUSTOMIZABLE

One of our proudest claims is that we offer the most customizable shutter on the market, and we will figure out a way to create the exact shutter that meets your specifications. This is the reason why so many architects choose us to provide the historically accurate and built-to-specification shutters you need.

BEST FINISH

Multi-stage finish is the best in the industry and it's AAMA 2605-17 Certified.

Base Coat: Proprietary process

Top Coat: Sherwin Williams Polane® paint with solar reflective properties, high color retention, and high abrasion resistance

LONGER

We offer the most comprehensive lifetime warranty in the business. (See Warranty Details)

BIGGER

A patented structural design allows us to provide shutters that are wider and taller with louver spans up to 45" with no sag or racking.

E-CLASS Series Colonials

The polymer composite E-Class Series is for more the budget-conscious projects, but still offers the elegance and prestige of our other Shutter Series.

The E-Class Series is constructed in the same way as our other shutter lines to give you the same structural stability. If you are looking for more customization options, view the Classic Series.
